CAREER OBJECTIVE

A passionate and innovative Artificial Intelligence & Data Science undergraduate with hands-on experience in AI-powered systems, web development, and robotics. Proven success in hackathons and projects with real-world applications. Seeking opportunities to apply problem-solving skills in impactful tech environments.

EDUCATION

St. Joseph's Institute of Technology, Chennai

B.Tech – Artificial Intelligence & Data Science (2022 – 2026)

CGPA: 8.2 / 10

- Relevant Coursework: Machine Learning, Deep Learning, Digital Image Processing, Operating Systems, Python, Java

David Matric Hr. Sec. School, Chennai

Higher Secondary (HSC) – 2022 | Percentage: **89.3%**

Secondary School (SSLC) – 2020 | Percentage: **71%**

TECHNICAL SKILLS

- Languages:** Python(NumPy, Pandas, Matplotlib), SQL(Joins, Subqueries, Aggregations)
- Web Development:** HTML, CSS, React.js, Three.js
- Frameworks & Tools:** OpenCV, IoT, GitHub, Jupyter Notebook
- Domains:** Machine Learning, Robotics, Front-End Development

PROJECTS

Smart Helmet for Road Safety

- Developed an AI-assisted road safety system integrating sensor data for real-time risk detection.
- Implemented alcohol detection and fatigue monitoring using embedded sensors and rule-based analytics to prevent unsafe driving.
- Won 3rd Place at Sai Ram College Project Expo

Drone & Rover for Smart Agriculture

- Built a computer vision-based plant disease detection system using drone imagery and OpenCV.
- Performed image preprocessing, feature extraction, and classification to identify crop health conditions.
- Implemented intruder detection and alert generation through vision-based surveillance.
- Won 1st Place in AI-ZYPHER'24 Shark Tank at SRM

INTERNSHIP

Web Development Intern – Karthikesh Robotics Pvt. Ltd.

Jan 2025 – Feb 2025

Completed a one-month internship where I developed interactive web pages using HTML, CSS, JavaScript, React.js, and Three.js. I worked on building 3D animations and dynamic interfaces, gaining hands-on experience in front-end development, performance tuning, and UI/UX optimization.

Robotics & Hardware Intern – Zuntra Digitals

June 2025 – August 2025

Completed a three-month internship at Zuntra Digitals with a focus on data-driven robotics systems. Worked on collecting, preprocessing, and analyzing sensor data from a delivery bot to support real-time decision-making and automation. Gained hands-on experience in data analysis, feature extraction, and integrating analytical insights into intelligent system behavior.

CERTIFICATIONS

- Google Cloud Campaign – GDSC
- Python Project Certification
- Certified Front-End Development
- Forage Virtual Internships (Accenture, Electronic Arts)

HACKATHONS & ACHIEVEMENTS

- SRM Hackathon – Fire Extinguisher Drone (1st Place, ₹3000 prize)
- Sai Ram College – Smart Care Helmet (3rd Place, ₹1500 prize)
- HackIT 3.0 – VIT – Finalist (Fire Extinguisher Drone)

LANGUAGES

- Tamil – Native proficiency
- English – Professional proficiency
